Education

Visvesvaraya Technological University (VTU) **Bengaluru, India**
Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.8/10.00) *Nov 2022 - May 2026*

Army Public School, Hempur **Uttarakhand, India**
Class XII, C.B.S.E (Percentage: 78.60%) *Apr 2021 - May 2022*

Army Public School, Hempur **Uttarakhand, India**
Class X, C.B.S.E (Percentage: 82.40%) *Apr 2019 - May 2020*

Experience

Tecnotree **Bengaluru, India**
Graduate Engineer Trainee *Sep 2026 - Present*
– Working on the Billing module of the Digital Convergent Billing System (DCBS), a billing platform for telecom operators.
– Migrating the module's codebase from Scala APIs to Java Spring Boot, re-implementing existing business logic in Java.
– Ensuring functional parity between the original Scala APIs and the new Spring Boot services throughout the migration.

MindMatrix **Bengaluru, India**
Software Engineering Intern *Feb 2026 - May 2026*
– Developed a mobile-first healthcare application for infant care, leveraging Spring Boot and Room DB for robust offline capabilities.
– Automated immunization tracking via Android WorkManager, connecting to Supabase PostgreSQL for secure cloud synchronization.
– Integrated Google Gemini API for dynamic nutritional analysis, offering personalized diet recommendations for infants.
– Collaborated with cross-functional teams using Git and Agile methodologies, accelerating features delivery schedules by 15%.

Projects

Multi-Agent Software Development Pipeline **Aug 2026**
Technologies: Python, Google Gemini API, RAG, GitHub REST API, PyGitHub, pdfplumber
– Built an autonomous RAG-based multi-agent system (Planner, Builder, Reviewer) that turns requirements into reviewed PRs.
– Engineered a Planner agent that decomposes PDF/TXT/MD specs into dependency-ordered GitHub issues with acceptance criteria.
– Developed Builder and Reviewer agents that write multi-file code into draft PRs and post inline diff reviews with verdicts.
– Designed a label-driven orchestrator with a 5-round review cap, human escalation, rate-limit backoff and Gemini model fallback.

Shishu-Sneh (Smart Baby's First Year Guide) **May 2026**
Technologies: Spring Boot 3.4.5, Java 17, Android Native, Room DB, Supabase, Gemini API
– Engineered an offline-first infant healthcare app utilizing Room DB and Supabase PostgreSQL for local persistence and cloud sync.
– Developed a Spring Boot backend to automate immunization tracking against the Indian NIS via Android WorkManager notifications.
– Integrated Google Gemini API to build a dynamic nutrition engine processing real-time user ingredients for localized recipes.
– Implemented data visualization dashboards using MPAndroidChart to parse health logs and render growth trends.

Advanced Skin Cancer Detection System **Nov 2025**
Technologies: Python, Flask, React, Tailwind CSS, XGBoost, Roboflow API, SQLAlchemy
– Built a full-stack AI web app for skin cancer detection achieving 85-90% test accuracy using ensemble ML models.
– Designed 10+ Flask REST APIs with SQLAlchemy and a responsive React UI supporting real-time medical image analysis.
– Implemented XAI, confidence scoring mechanisms, and automated 100% of medical report updates via PDF generation.

Technical Skills

- **Languages:** Java, Python, JavaScript, HTML, CSS
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, Maven, Gradle, Supabase
- **AI/ML:** Google Gemini API, Prompt Engineering, Agent Creation, Multi-Agent Systems, RAG, XGBoost
- **Developer Tools:** GitHub Copilot, Cursor, Codex, Claude, Chat2DB

Scholastic Achievements

- Solved 100+ Data Structures and Algorithms problems on LeetCode, strengthening problem-solving and algorithmic thinking skills.
- Secured 1st position in a competitive Code Debugging Session, demonstrating debugging agility and technical problem-solving.
- Awarded 2nd position in Python for Data Science Workshop, showcasing data manipulation and structural analysis proficiency.
- Won 2nd position at Project and Research Expo 2025 for the project "Skin Cancer Detection Using Deep Learning Techniques".
